## Background/Objective of Conference

Many ASEAN utilities are currently embarking on initiatives in aligning and transforming traditional asset management capabilities towards AM best practices. Changing regulatory environment and stakeholders demand for higher operational efficiency and business performance and emergence of ISO55000 have given the industry the much need impetus or motivation in seeking real transformation of AM capabilities.

This biennial conference presented by CIRED Malaysia will seek to bring into focus many of areas of concerns, challenges, strategies and actions as well experiences that would be useful to many in pushing ahead with transformation agenda. As the theme **“Asset Management Transformation towards Business Excellence”** suggests, asset management transformation has to be on a path or trajectory to push the business onto new frontiers of all round business excellence as measured by level of service standards driven by asset performance, costs of services and profitability.

As always, CIRED Malaysia aims to gather all industry enthusiasts and practitioners to exchange knowledge, ideas, insights and experiences in advancing body of knowledge and eventual practices in asset management especially in Malaysia and ASEAN region, the fastest growing economic region or community.

## About The Organizer

CIRED Malaysia is a local industry-based NGO dedicated towards shaping and advancing body of knowledge and industry practices in managing electricity supply business for the benefits of all stakeholders- utility, customers, industry players/community, society and nation. It was established in 1999 and has since contributed significantly to the local industry through its strategic programs which are primarily focused on capacity building of industry community members and stakeholders/community engagement programs in shaping policies, strategies, actions and ultimate practices and outcomes.

## Call for Papers/Speakers & Important Dates

As usual, the organizer and supporting organizations are cordially inviting industry professionals, experts and practitioners to contribute to the successful staging of AMCEU 2015 :-

Submission of Abstract c/w CV	22nd May 2015
